Mirandilla, Extremadura.

## FULLSTACK DEVELOPER

Fullstack developer with two years of experience in web development and application development. I'm actually working in NeoCK which is a company specialized in innovation for employability and education through social technology.

## WORK EXPERIENCE

### Fullstack Developer

Dec 2022 - Today

NeoCK, Badajoz

- Currently, **I'm employed in this role**. I've been involved in **creating a variety of applications**. These projects includes responsive web apps, **using HTML, CSS, Typescript, and React**.
- **I've managed to accelerate the pace of application development**, particularly as prior to my involvement, all applications were outsourced to external companies.
- My work also involves utilizing **agile methodologies**.

### Fullstack Developer

Feb 2022 - Nov 2022

Assembler Institute of Technology, Barcelona

- I have **worked for 8 months** in a real working environment based on clean code and scalability principles.
- I have done more than 20 projects during these 8 months with technologies like **Javascript, React.js, Next.js, Node.js, Express, MongoDB, PHP, and MySQL**. As a **final project**, we made a **Spotify clone** with **Next.js, MongoDB, Express** and **Docker**
- I have been working with **agile methodologies**.

### Database client Administrator

Sep 2020 - Jul 2021

Ciudad sin Cables, Mérida

- I worked migrating clients from one web application to another.
- I was also in charge of supporting the technical staff, which reduced the waiting time of my colleagues and streamlined the process.
